

3D lipo

3D Lipo is one of the most advanced machines of its type and offers a new dimension in non-surgical fat removal, treatment of cellulite and skin tightening in one award winning machine.

CAVITATION

Ultrasound Cavitation uses ultrasound to rupture fat cells, this turns the cells into liquid which is carried away by the body as a waste product. This is the used for inch loss and fat pocket reduction.

This treatment is customized to each customer and will be assessed with a free consultation.

Treatment time: 40 mins (1 Area)
(5 mins per area size of a hand)

£60

RADIO FREQUENCY

Generates energy that penetrates the skin layers to selectively heat the skin tissue. The hearing process results in immediate contradiction of collagen fibres. At the same time, new collagen is produced. This gives a tighter and firmer appearance to the skin.

Additionally this can be used also for fat melting.

Treatment time: 15-40 mins

Face
£50

Body
£60

CRYOLIPOLYSIS

Using a unique combination of electro and cryo therapy, 20%-40% of the fat cells in the treated area die in a natural way and dissolve over the course of several months.

This treatment is customized to each customer and will be assessed with a free consultation.

Treatment time: 45 mins per area

1 Area
£70

2 Areas
£130

Double
Chin
£80
